DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: The continuing data listed on page 1 lines 5-6 of the specification (submitted with amendment 8-16-2006) appears to be incorrect. Application number 10/668,674 now patent 6,890,451 is entitled, "Environmentally Benign Anti-icing or Deicing Fluids Employing Triglyceride Processing By Products", which does not appear to relate to the present invention. Appropriate correction is required.

Drawings

The drawings are objected to because in figure 2, reference number 30 is pointing to the spacer and not the crease. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are

not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 5 is objected to because of the following informalities: In claim 5, lines 11-13, there is a lack of antecedent basis for "said one half of a first whole sheet" and "said one half of a second whole sheet". Appropriate correction is required.

Allowable Subject Matter

Claims 1,4,6-19,21-22,26-27,29-30 are allowed over the prior art of record. The prior art does not anticipate or make obvious the "front wall comprises half of a first whole sheet and said back wall comprises one half of a second whole sheet" in combination with the remaining claim limitations.

Claim 5 would be allowable if rewritten to overcome the claim objections above.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
